MANAGEMENT DISCUSSION AND ANALYSIS

INDUSTRY STRUCTURE AND DEVELOPMENTS

Non Banking Financial Companies play a vital role in the financial sector of our economy along with other financial institutions. Over the years, due to their strategic management practices and refined operational techniques coupled with lower costs of delivery, lower restrictions on customers etc., have led to it being an alternate choice and at times the first choice for several customers, who need financing. While the RBI has made regulations stringent for the NBFCs, it has also recognized the utility of the NBFCs and thereby made them eligible to set up Banks and also act as an extension of Banks, where the Banks cannot reach. Due to the increase in finance space by NBFCs, the RBI's surveillance has increased. Through its various regulatory measures NBFCs are brought under stricter supervisory regime of RBI. While several steps are being taken to increase the role that the NBFCs play, norms are being strengthened to ensure that there is a strong, transparent and robust non banking financial sector.

OPPORTUNITIES AND THREATS

Opportunities

Reports from the World Bank indicate that Non Banking Financial Institutions act as critical pillars contributing to macroeconomic stability and sustained economic growth and prosperity, due to their ability to finance firms and individuals at a reasonable cost, reduce volatility by providing multiple sources to finance and park funds and enable creation of a competitive environment characterized by a diverse array of products. This has been proven time and again in developed markets. Non-Banking Finance Companies (NBFCs) continue to play a critical role in making financial Services accessible to a wider set of India's population and are emerging as strong intermediaries in the retail finance space. Going forward, one should expect NBFCs to further strengthen their presence in retail finance and grow at a reasonably healthy pace.

Threats

The biggest challenge before NBFCs is that they are facing stiff competition from banks and financial institutions, due to their ability to raise low cost funds which enables them to provide funds at much cheaper rate. More stringent capital adequacy norms have been stipulated by RBI for NBFCs which is making difficult for them to give cheaper finance. Ever-increasing competition from commercial counterparts whose capacity to absorb losses is higher, counter-party failures, recommendations being made to increase the purview of monitoring by regulatory authorities increase the threat of losing the essence of Non-banking Finance Companies which are specifically designed to reach out and finance certain target groups.

SEGMENT –WISE PERFORMANCE

The Company is a Non Banking Finance Company (NBFC). It is engaged in the business of financing which is the major segment in the Company. Besides financing, your Company is also involved in generation of electricity through its windmill located in Tamil Nadu. Hence, the results for the year under review pertain to both financing activity and electricity generation. Detailed segment wise revenue break-up is shown in the notes to financial statements.

OUTLOOK

As the markets continue to grow and mature leading to differentiation of products and services. Each financial intermediary will have to find its niche in order to add value to consumers. The Company is cautiously optimistic in its outlook for the year 2016-17.

RISKS AND AREAS OF CONCERN

The NBFC industry in general faces the risk of re-entry and new entry of players and existence of several unorganized regional players increasing the competition which mainly affects the asset quality. This is further characterized by captive NBFCs floated by other business houses. The ever existing systemic and delinquency risks and fluctuations in interest rates make the companies more vulnerable. Deployment of funds in sensitive and volatile sectors increases the risk exposure while concentration risk increases dependency

INTERNAL CONTROL SYSTEMS AND THEIR ADEQUACY

Internal Control measures and systems are established to ensure the correctness of the transactions and safeguarding of the assets of the Company. The Management ensures adherence to all internal control policies and procedures as well as compliance with regulatory guidelines. The audit committee of the Board of Directors reviews the adequacy of internal controls. This has improved the management of the affairs of the Company and strengthened transparency and accountability.

DISCUSSION ON FINANCIAL PERFORMANCE

During the year, the net revenue from operations of your Company increased by 50.58 %, from ₹ 41.62 Lakhs to ₹ 62.67 Lakhs. For FY 2016 - 17, your Company's profit after tax stood at ₹ 32.71 Lakhs vis-à-vis ₹ 17.70 Lakhs in the previous year, registering a growth of 84.80 %.

MATERIAL DEVELOPMENTS IN HUMAN RESOURCES, INCLUDING NUMBER OF PEOPLE EMPLOYED

The Company always considers its human resources as a valuable asset and is committed towards their development for continuous growth. Focus on training to enhance the skill-sets of employees in line with the business and market requirements continued throughout the year and it confers recognition based on merit. The employee relations have continued to be harmonious throughout the year. The Company has three (3) permanent employees as on 31st March 2017.

ANNEXURE-B TO THE AUDITORS' REPORT

Report on the Internal Financial Controls under Clause (i) of sub-section 3 of Section 143 of the Companies Act, 2013 ('the Act')

We have audited the internal financial controls over financial reporting of J. J. Finance Corporation Ltd. ('the Company') as of 31 March 2017 in conjunction with our audit of the standalone financial statements of the company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the 'Guidance Note') and the Standards on Auditing, both issued by ICAI and deemed to be prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note which are applicable to an audit of internal financial controls, require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company, (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of the Management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, and adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2017, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

NOTES TO THE FINANCIAL STATEMENT FOR THE YEAR ENDED 31ST MARCH, 2017

1. CORPORATE INFORMATION

J. J. Finance Corporation Ltd is a company incorporated in India and regulated by Reserve Bank of India (RBI) as a Non-Deposit Accepting or Holding Non Banking Financial Company (NBFC) engaged in the business of Finance and Generation of Electricity through Wind Power Mill.

2. SIGNIFICANT ACCOUNTING POLICIES

2.1 BASIS OF PREPARATION OF FINANCIAL STATEMENTS

The financial statements have been prepared in accordance with the Generally Accepted Accounting Principles (GAAP) in India under the historical cost convention on accrual basis.

GAAP comprises applicable Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014. These financial statements comply in all material aspects with the Accounting Standards (Rules) notified under the companies (Accounting Standard) Rule, 2006 (as amended), to the extent applicable and the terms of “ Non-Banking Financial (Non-Deposit Accepting or Holding) Companies Prudential Norms (Reserve Bank) Directions, 2007” issued by Reserve Bank of India.

All Assets and Liabilities have been classified as current or non-current as per the Company’s normal operating cycle and other criteria set out in the Schedule III to the Companies’ Act, 2013.

Accounting policies not specifically referred to otherwise are consistent and in accordance with generally accepted accounting principles.

2.2 USE OF ESTIMATES

The preparation of financial statements in conformity with the GAAP requires estimates and assumptions to be made that affect the reported amount of revenues, expenses, assets and liabilities and the disclosure of contingent liabilities, at the end of the reporting period. Although these estimates are based on the management’s best knowledge of current events and actions, uncertainty about the assumptions and estimates could result in outcomes different from the estimates. Different between actual results and estimates are recognized in the period in which the results are known or materialize.

2.3 TANGIBLE FIXED ASSETS

Fixed assets are stated at cost, net of accumulated depreciation. The cost comprises purchase price, borrowing costs if capitalization criteria are met and directly attributable cost of bringing the asset to its working condition for the intended use. Any trade discounts and rebates are deducted in arriving at the purchase price.

Subsequent expenditure related to an item of fixed asset is added to its book value only if it increases the future benefits from the existing asset beyond its previously assessed standard of performance. All other expenses on existing fixed assets, including day-to-day repair and maintenance expenditure and cost of replacing parts, are charged to the statement of profit and loss for the period during which such expenses are incurred.

2.4 DEPRECIATION ON TANGIBLE FIXED ASSETS

Depreciation on tangible fixed assets is calculated on the straight-line method as per the useful life prescribed in Schedule II to the Companies Act, 2013.

NOTES TO THE FINANCIAL STATEMENT FOR THE YEAR ENDED 31ST MARCH, 2017 (Contd.)

2.5 INVESTMENT

Investments, which are readily realizable and intended to be held for not more than one year from the date on which such investments are made, are classified as current investments. All other investments are classified as long-term investments.

On initial recognition, all investments are measured at cost. The cost comprises purchase price and directly attributable acquisition charges such as brokerage, fees and duties. If an investment is acquired, or partly acquired, by the issue of shares or other securities, the acquisition cost is the fair value of the securities issued. If an investment is acquired in exchange for another asset, the acquisition is determined by reference to the fair value of the asset given up or by reference to the fair value of the investment acquired, whichever is more clearly evident.

Current investments are carried in the financial statements at lower of cost and fair value determined on an individual investment basis. Long-term investments are carried at cost. However, provision for diminution in value is made to recognize a decline other than temporary in the value of the investments.

On disposal of an investment, the difference between its carrying amount and net disposal proceeds is charged or credited to the statement of profit and loss.

Shares held in Stock in Trade of ₹ 6,21,375/- at cost has been converted into Investment at cost w.e.f. 01.01.2017.

2.6 INVENTORIES

Inventories are valued at lower of cost or net realizable value.

2.7 INCOME & EXPENDITURE RECOGNITION

Income & Expenditure unless otherwise stated, are accounted for on accrual basis except income from Dividends which is accounted for as and when actually received.

The Company has followed the prudential norms for income recognition and provisioning against non performing assets and Provision on Standard Assets as prescribed by the Reserve Bank of India for Non Banking Financial Companies.

2.8 RETIREMENT AND OTHER EMPLOYEE BENEFITS

Retirement benefit to employees such as Employees' Provident Funds and Miscellaneous Provisions Act, 1952 and The Payment of Gratuity Act, 1972 are not applicable to the "company" as number of employee is below the Statutory limit as prescribed by the above Acts.

The company does not have the policy of extending leave encashment benefits to its employees.

2.9 TAXES ON INCOME

Tax expense comprises current and deferred tax. Current income-tax is measured at the amount expected to be paid to the tax authorities in accordance with the Income-tax Act, 1961 enacted in India. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date.

Deferred tax is recognized on timing differences, being the difference between taxable income and accounting income that originate in the one period and are capable of reversal in one or more subsequent periods. Deferred tax assets are recognized only if there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax asset will be realized. Such assets are reviewed as at Balance Sheet date to reassess realizability thereof. Deferred tax assets and deferred tax liabilities are offset, if a legally enforceable right exists to set-off current tax assets

NOTES TO THE FINANCIAL STATEMENT FOR THE YEAR ENDED 31ST MARCH, 2017 (Contd.)

against current tax liabilities and the deferred tax assets and deferred taxes relate to the same taxable entity and the same taxation authority.

2.10 EARNINGS PER SHARE (EPS)

Basic EPS is calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the year.

For the purpose of calculating diluted EPS, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares, if any.

2.11 PROVISIONS

A provision is recognized when the company has a present obligation as a result of past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Provisions are not discounted to their present value and are determined based on the best estimate required to settle the obligation at the reporting date. These estimates are reviewed at each reporting date and adjusted to reflect the current best estimates.

2.12 CONTINGENT LIABILITIES AND CONTINGENT ASSETS

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The company does not recognize a contingent liability but discloses its existence in the financial statements.

Contingent assets are neither recognized nor disclosed in the financial statements.

2.13 CASH AND CASH EQUIVALENTS

Cash and cash equivalents for the purposes of cash flow statement comprise cash at bank and in hand and short-term investments with an original maturity of three months or less.
